EDUCATION

Conestoga College
Associate's, Computer Science

January 2024 - April 2025
GPA: 3.92

University of Imo State
Bachelor's, Computer Science

September 2020 - September 2024

PROFESSIONAL EXPERIENCE

Flowforce
Founding Engineer

December 2025 - Present
Remote

- Engineered and launched an AI-driven CRM platform utilizing generative AI, enhancing outbound sales automation and lead management, resulting in a 30% increase in sales efficiency.
- Developed robust full-stack features in Python, including AI-generated follow-ups and meeting summaries, achieving a 40% reduction in manual task completion time.
- Integrated APIs across frontend and backend systems to optimize database architecture and AI workflows, ensuring scalable product functionality and a seamless user experience.

Auviel
Founding Software Engineer

November 2024 - Present
Remote

- Engineered and launched production-grade AI-driven SaaS products and scalable digital platforms, enhancing operational efficiency for startups and enterprises.
- Executed full-stack engineering and cloud infrastructure management, leveraging AWS, containerization, React, Next.js, TypeScript, Node.js, PostgreSQL, and cloud-native tooling.

Naija Jollof
Full stack Developer

March 2024 - May 2026
Waterloo, ON, Canada

- Enhanced a multilingual restaurant platform by implementing seasonal features and responsive layouts, resulting in a 30% increase in development velocity through reusable UI components.
- Utilized SQL for efficient database interactions, ensuring data integrity and performance across the platform while implementing CI/CD practices for streamlined and reliable deployments.

Rareplus Pharmaceuticals
Junior Developer

September 2021 - September 2023
Lagos, Nigeria

- Optimized and maintained internal tools for inventory and consultation management, implementing bug fixes and UI updates.
- Supported legacy systems through feature enhancements and performance tuning, ensuring seamless integration of product listing modules.

Our Lady of Lourdes Hospital
IT Support Assistant

January 2020 - August 2021
Nigeria

- Installed and maintained IT infrastructure across departments, enhancing reliability of EMR systems.
- Troubleshoot network and hardware issues, ensuring uninterrupted support for clinical operations.
- Ensured security compliance and maintained uptime for critical workstations and printers.

PROJECTS & OUTSIDE EXPERIENCE

ImageMark
Full Stack Developer

May 2025 - Present

- Engineered a sophisticated browser-based image processing platform utilizing CAD) principles, incorporating advanced features such as watermarking, image conversion, optimization, background removal, and metadata stripping tools.
- Developed high-performance client-side workflows for batch image processing and real-time previews, achieving a 30% increase in processing speed while ensuring privacy and modern UX standards.
